Academic Projects

Title	: StreetBite	
Platform	: Web Technologies	Duration : 2 Months
Description	: StreetBite is a web platform that helps users discover nearby street food vendors using real-time location. Vendors can register, add menus, upload photos, and update availability, while users can view profiles, ratings, reviews, and navigate through an interactive map. Built with Next.js, Spring Boot, Firebase Firestore, and Google Maps APIs, StreetBite makes it easier for small food stalls to build a digital presence and helps users explore authentic, affordable street food around them.
